SUMMARY

I am determined to secure an entry-level software developer position that offers both challenge and reward. With a strong foundation in coding and a passion for creating innovative software solutions, I am excited to contribute to a dynamic development team.

EDUCATION

JSS College of Arts, Commerce and Science (Autonomous) (Mysore University)., Ooty Road, Mysuru.

Mar 2022 - July 2024

Master of Computer Application (MCA) (6.29CGPA)

Royal Degree (Gulbarga University) College, Bidar
Bachelor of Science (Computer Science) (72%)

Jun 2018 - Oct 2021

Shree Maate Manikeshwari College Bidar | PCMB

July - 2017

PUC-49%

Vidyaranya High School, Bidar

April - 2015

SSLC - 67.04%

TECHNICAL SKILLS

Programming Languages: Core Java.

Query Language: SQL.

Web Technology: HTML, CSS

• Frame Work: JDBC, Spring Boot, Hibernate.

PROJECTS

- Blood Sample Management System.
 - Technology Stack: Java, Spring Boot, Hibernate, MySQL, REST APIs.
 - Designed and developed a Blood Sample Management System to efficiently handle blood donation requests, donor details, hospital requests, and blood bank transactions.
 - This project showcases expertise in Spring Boot, Hibernate, MySQL, and API development, with a focus on database design, entity mapping, and backend logic for healthcare management.
- Bird Species Identification from Image Processing Machine Learning
 - Technology Stack: Python, HTML, CSS, JS
 - Bird identification is a difficult undertaking that frequently results in ambiguous labelling. In this we use the CNN algorithm for image processing
 - Even skilled bird watchers dispute on the species of a bird when presented with an image of one. We confidently utilize HTML, CSS, and JavaScript for the front end, while leveraging Python to train our data effectively.

COURSES AND CERTIFICATION

Java Full-Stack Web Development - Dhee Coding Lab

Completed a Java Full Web Development course at Dhee Coding Lab, focusing on SQL, Core Java, HTML, and CSS.

Developed skills in both front-end and back-end development with an emphasis on building robust web applications and managing databases.
